

Eliminates problems, not profits

No matter how well you clean, EVERY restaurant and bar has issues with fat, oil, grease (FOG) & sugar – slippery floors, clogged drains, foul odors, sticky surfaces.

💰 75% costs savings on FOG & sugar related plumbing issues

🚶 100% elimination of slippery floors

👃 100% removal of odors

HOW IT WORKS

The BioProtect Difference

COMMON FOG & SUGAR

Batters

Butter/Margarine

Cooking Oil

Dairy Products

Dressings

Food Scraps

Grease from Cooking

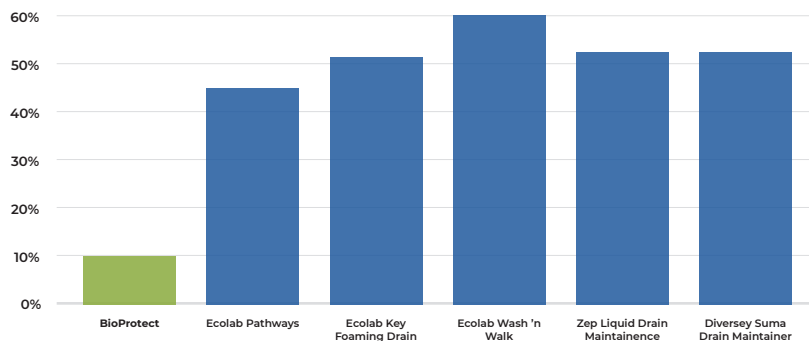

Grease from Ventilation

Those problems may be lurking right beneath the surface and, if left untreated, result in downtime, large plumbing costs and fines from local authorities. Traditional cleaners don't cut it when it comes to FOG & sugar and can be ineffective, corrosive, toxic and leave behind residue.

Using patented biotechnology, BioProtect FOG & Sugar Eliminator is the only product that harnesses the power of surfactin to deliver the most powerful, effective and easy-to-use cleaning solution for expensive drain, floor and surface problems.

BioProtect eliminates 90% of FOG in drains, 40% more than competing products.

% of FOG remaining after treating a packed drain

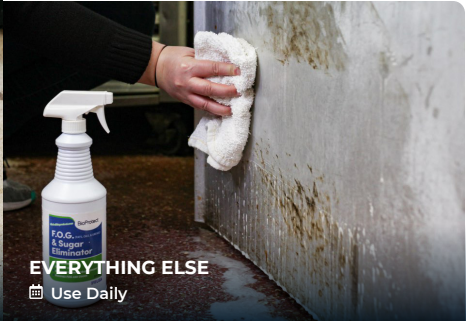

Two Powerful Formulas

- Permanently clear drains while preventing clogs and backups
- All Floor Drains
 - Beverage Stations Trays & Drains
 - Grease Trap Drains
 - Dishwasher & Dish Pits
